## Lowedown Newsbriefs

### Leadership Training in Colorado

Ft. Collins, CO.— Jen and I have been living in Fort Collins since the middle of June.

You may be wondering what it is that we're doing out here.

For the first four weeks, we've been involved in coaching new leaders who will be stepping into positions of leadership when they go back to their campuses in the fall. These new leaders will be responsible for taking the gospel to every student

**Dave & Jen in Ft. Collins, Colorado at the New Leaders Commissioning Banquet.**

who is on their campus.

Not only have we enjoyed helping these leaders as they think about how they will lead their teams and reach students on their campus, but the content has been a great refresher for us as well, especially as Jen will be stepping back into the Associate Director role next year on a part-time basis.

As for Jacob and Joshua, they have absolutely loved being involved in Kid's Camp, which is sort of a summer long VBS-type program. Being extroverts, they have made lots of new friends. They've also done lots

of fun stuff like ice skating, roller skating, swimming and bike riding.

Now that the director's training is over, we're enjoying our biennial staff conference, along with about 5000 other Campus Crusade staff.

**Pray for the 6 new leaders that Jen and I coached this summer. Pray that they would walk with God and lead their teams well. Pray that they would reach out to many students and see a Christ-centered movement develop. Pray for us as well, as we lead our team at Davis and Sac State next year.**

### Saving Souls in San Salvador

This summer, our Destino ministry led the first summer project to the country of El Salvador. Though Campus Crusade has had a ministry in El Salvador for 44 years, this is the first year that there has been a summer project to that country, and our staff and students led the project.

About 8 of our Destino students were on the project and half of those students are very new believers.

In San Salvador, the project saw 18 students come to Christ on the most prestigious, private university in the country. When the president of the university found out that our team was there, he invited the leaders into his office for a private conversation, where he expressed appreciation for them being there and gave us an open door to come back and continue ministry there.

**Praise God for the success of this project. Pray for the follow-up of these new believers and pray for the future of this potential partnership with this Latin American country.**

### Campus Mission 2007 in South Korea

About 20 students from Davis attended a week-long international missions conference in South Korea at the end of June.

About 18,000 students from over 120 countries convened in Busan for a student missions conference designed to challenge and motivate students to take the gospel to the remaining unreached people groups of the world.

I admit that I really wish I could have attended this historic event. The reports I've received from our students who attended indicate that this event was absolutely incredible.

**Please pray that our students who attended would come back to campus this fall with an eternal mindset in their view of how God wants to use them to help accomplish His purposes of fulfilling the Great Commission.**

### Heading Eastward

After our time in Colorado is up, we'll be heading to Kansas for a few days to visit Dave's Grandmother and Aunt and Uncle. It's been a few years since we've been to Kansas and our boys have never met their Aunt and Uncle.

**Pray for us as we travel to Kansas and then make the trek back to Davis in early August.**

### Thanks to You...

...for partnering with us to take the gospel to students all over the world!
